

I wish to express my concern over the prooposed plans to give Low Power FM (LPFM) stations priority over current FM translator services. My family listens to two different national services (KLOVE and Air-one) that utilizes translators to provide service around the country. These are family friendly programming that extol good moral values and provide services and opportunities to communities around the country. To have these established stations displaced by a LPFM station one, is not fair since they are already established, serve thousands of individuals around the country in a very positive way and truly are in the public interest. Please do not let LPFM stations bump currently established stations that are listened to and benefit a wide variety of people all around the country. Thank you for your time in considering these comments.

Sincerely,

Paul R. Norman & family
